MADE IN THE USA

## PRODUCT LINEUP

# Alexander Arms

INTERNATIONAL

Alexander Arms International is an American owned business specializing in firearms, leveraging innovation & expertise to provide our clientele with unwavering performance and unfailing reliability.

Built upon a reputation of innovation, Bill Alexander masterfully developed the .50 Beowulf® and 6.5mm Grendel caliber cartridges to improve upon the known AR-15 platform. With our quality-first mindset, we build firearms with the understanding that not only the operator's life depends on it, but the freedoms that allow us to produce these rifles also depend on it.

With the foundation set on two new cartridges, we have taken our expertise to platforms chambered in 5.56mm NATO, .338 Lapua Magnum and others to bring tailored solutions to your unique mission.

## OUR MISSION

To equip Law Enforcement and Military personnel with high performing firearms that have unfailing reliability, partnering with end users to ensure their operational needs are exceeded while remaining a resource long after operations are complete.

# HALO<sup>®</sup>

When Modern  
Medicine Meets  
Modern Technology

HALO inventors used real world data and combat experience to maximize tourniquet effectiveness and minimize finite motor skill manipulation. In short, HALO was built to work when we are under stress. HALO is designed to be faster and easier to put on than any other device.

**HALO**  
**[HEMORRHAGE ARRESTING LEVER OPERATED]**  
**TOURNIQUET**

---

Rapidly self-applied with one hand

---

Intuitive, single motion application

---

Perfect for low light/no light and confined space conditions

---

Easy to learn, train and retain

---

Effective, secure bleeding control

---

Proven materials and components

---

Extensively tested for strength

---

High Strength Hook and Loop adds confidence in rough terrain

---

Designed by military veterans and engineers to be the best solution to extremity hemorrhage

---

**PROUDLY MADE IN THE U.S.A**
